Bermo Inc. Announces the Launching of 24-Hour Prototyping

FOR IMMEDIATE RELEASE

Minneapolis, MN – Bermo Incorporated is excited to announce the immediate launch of **24-hour prototyping**, an **exclusive** service dedicated to **our customer's design stage**.

Bermo Inc.'s 24-hour prototyping is a response to meet the needs of our customers: quick and accurate parts built within a 'just-in-time' environment.

Bermo Inc. has also made pricing and ordering simple and similar to ordering off a menu: choose from a three tier structure (depending on operations required by our customers). Customers will find this exclusive service affordable and an easy return on their spend.

"From a strategy point-of-view, being able to provide parts in one day is a nice service!" --- John Deere

24-hour does not include shipping and should be arranged by customer.
PO acceptance dependent on stock of material at time of order.
Some manufacturing features may not be applicable.

For more information, call 763-786-7676 or visit www.bermo.com.

Bermo Incorporated is a privately owned-and-operated manufacturer founded in 1947 that specializes in metal fabricating, stamping, welding, and assembly. It's 300,000 square-foot facility runs 3 shifts, 5 days a week, and staffs more than 250 employees.
